**Please find below and/or attached an Office communication concerning this application or proceeding.**

The time period for reply, if any, is set in the attached communication.

**Attachment to Advisory Action**

1. Applicant's arguments filed 9/10/08 have been fully considered but they are not persuasive. First, applicant's after-final amendment filed 9/10/08 has been entered because it overcomes the rejections of claims 41 and 42 under 35 USC 112, first paragraph. Second, applicant's argue that Bauer does not teach positioning at least one elastomeric portion onto a rigid substrate; encapsulating the elastomeric portion on all sides thereof where interconnect(s) are present; and using components of the claimed materials. In regard to positioning at least one elastomeric portion onto a rigid substrate, Bauer teaches that the cover plate and body member can be made of metal, plastic, or any other material that can retain its shape (col 2, lns 51-60; col 5, lns 15-25). In regard to encapsulating the elastomeric portion on all sides thereof where interconnect(s) are present, Bauer teaches that the body member/elastomeric portion is surrounded by injected material. Applicant should note that the encapsulating step is qualified by the phrase "where interconnect(s) are present." Finally, applicant argues that Bauer does not teach the claimed materials. This argument is misplaced because Bauer teaches using components having the claimed materials (col 2, lns 30-32 and 37-60; and col 5, lns 15-25).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to EDMUND H. LEE whose telephone number is 571.272.1204. The examiner can normally be reached on MONDAY-THURSDAY FROM 9AM-4PM.

Art Unit: 1791

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Yogendra Gupta can be reached on 571.272.1316. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
